

Skip the registration desk

Use eArrival the self-check-in feature

eArrival allows you to check-in for your appointment with your mobile device. No need to stop at a desk or kiosk. Use eArrival at your next appointment to simplify check-in and minimize the need for in-person interactions.

Steps for eArrival:

1. **Before your appointment** complete Pre-Registration via your MyChart account
2. **When you arrive at the clinic** open your MyChart app to confirm you have arrived. This can be done up to 30 minutes before your appointment time.
3. **Once you confirm arrival**, read the message displayed on your mobile device for instructions. If we are not missing any information, you will be checked-in automatically and you can continue directly to your clinic.
